

Even though attendance has improved throughout school, there is still a small group of children whose parents don't get them to school on time every day. We will be working closely with them to make sure their children are here on time every day.

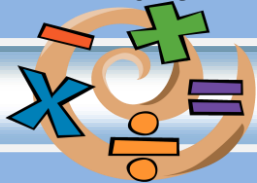

We want to help you all become much better at spelling so we will be teaching spelling in a way that will make sure that your teachers are helping you to become more fluent writers.

We want to make sure that all pupils at Mellers make excellent progress, from the youngest to the oldest. We are very keen to make sure that even if you are struggling you don't give up and we'll work with you to find out the best way for you to make progress.

Your teachers will be helping you to become faster, more fluent readers; you can help by reading more at home.

## What are we doing to improve our school this year?

Your teachers in the foundation stage (F1 and F2) want to improve the outdoor play areas so that they are fun and exciting. This will help you to learn and make good progress through inspirational and creatively planned activities outside.

In the foundation stage, key stage one and key stage two your teachers will be helping you to become mastery mathematicians. They will help you to calculate much more quickly, and to solve word problems fluently. Practising your multiplication tables will help!

This year, our school governors will be working hard to make sure they are helping us to become an even more effective school than we already are. They will be in school regularly.

We will be working together with school council to make sure that our curriculum is exciting and inspiring, so that all of our pupils are keen to learn and interested in their learning.

Because we have so many more children in our nursery (F1), we want to make sure that our new nursery team is focusing really hard to make sure everyone is working in the Mellers' way.

As our school grows, we want to make sure that we carry on doing things 'the Mellers' Way' so that everyone is working towards being the best that they can be!
